

MAA PLASTOTECH

Build Quality Around The World

Manufacturer of **Plastic Moulding Products**

www.maaplastotech.com

About Us

Welcome to Maa Plastotech, where Quality Meets Innovation. Since 2013, we've led the plastic molding industry with our dynamic mother-and-son team, combining over 22 years of technical expertise in plastic processing. Our motto, "Build Quality Around The World," represents our dedication to generating outstanding plastic molding products that have a positive impact on a variety of global sectors. Our journey embodies dedication to excellence, innovation, sustainability, and unwavering quality in all we do.

Founded on a shared passion for pushing the boundaries of plastic molding, our team boasts vast technical knowledge and a forward-thinking approach, offering advanced, reliable plastic molding solutions.

We're proud to exceed the diverse needs of clients and partners worldwide. All our products adhere to the IS 6312 standard, ensuring optimum quality and production techniques.

Dedication to quality is our core. Both raw materials and finished products undergo rigorous in-house testing to meet all standards. Each batch of final products undergoes strict evaluations to meet every customer's requirements.

"Shaping Your Vision, One Moulded Product at a Time."

Mission

Our mission is to create a legacy of excellence in plastic molding, exceeding the diverse needs of our global clients and partners through innovation, sustainability, and unwavering quality in all aspects of our operations.

Vision

Is to be a global leader in the plastic molding industry, recognized for our exceptional quality, sustainability, and unwavering commitment to customer satisfaction.

Our Product

Injection Moulding

Precision in Manufacturing

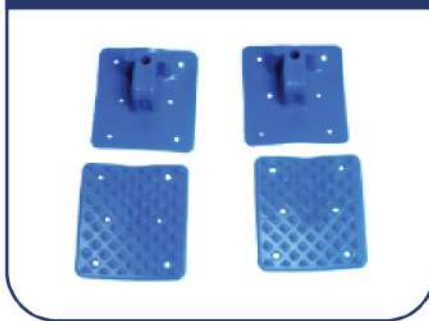

Injection molding is a highly versatile and cost-effective manufacturing process used to produce a wide range of plastic parts and products. Whether you need intricate components for the automotive industry or simple consumer goods, injection molding can meet your needs with precision and efficiency.

CAP & CLAMP

Size: 5 to 15 inch
Colour: As Per Requirement

LUGS

Colour: As Per Requirement

SWEET BOXES

Size: 500 gm to 1000 gm
Colour: As Per Requirement

BOTTLES CAP & INNER PLUG

Size: 1 to 2.5 inch
Colour: As Per Requirement

MOUSER & INNER PLUG

Size: 2 to 6 inch
Colour: As Per Requirement

HANDLE WITH PIN

Colour: As Per Requirement

Our Product

Blow Moulding

Shaping Possibilities with Air and Precision

Blow molding is a highly versatile and efficient manufacturing process used to create hollow plastic parts and containers. This innovative technique allows for the production of a wide range of items, from simple bottles to complex automotive components. Our product range in blow moulding is from 500 ml to 100 ltr.

WIDE MOUTH DRUM

Size: 50 Ltrs.
Colour: As Per Requirement

ROCKET & OIL DRUM

Size: 50 Ltrs. ripped & without
Colour: As Per Requirement

NARROW MOUTH DRUM

Size: 50 Ltrs.
Colour: As Per Requirement

OPEN TOP DRUM

Size: 10 Ltrs. to 65 Ltrs.
Colour: As Per Requirement

POLYCAN MOUSER

Size: 10 Ltrs. to 35 Ltrs.
Colour: As Per Requirement

JERRY CAN

Size: 35 Ltrs.
Colour: As Per Requirement

Our Product

Customize Moulding

Shaping Innovation to Your Exact Needs

Customized molding, also known as custom molding, is a specialized manufacturing process that allows you to design and produce unique, tailored components and products. This innovative technique empowers businesses to bring their creative ideas to life with precision and flexibility.

STADIUM CHAIR

Colour: As Per Requirement
